

## CHIKUSHI JOGAKUEN UNIVERSITY (筑紫女学園大学)

### Evaluation summary

During the academic year 2016 evaluation and accreditation, Point Evaluated 3-1 “Management discipline and integrity,” Point Evaluated 3-2 “Functions of the Board of Directors,” Point Evaluated 3-3 “Decision-making process and leadership of the president,” and Point Evaluated 3-4 “Communication and governance,” were judged as being unsatisfactory, as was Standard 3. “Management, Administration and Finance.” The reason for this was that the University was not strictly adhering to important legislation relating to university operations including a failure to review regulations in response to amendments to the School Education Act and related regulations. Furthermore, there was no clarity or functionality concerning the authorities and responsibilities related to the University’s decision-making.

However, as it was judged that it would be feasible to reform the cause of the standard deemed unsatisfactory within the space of one year, it was decided to wait for the results of the re-evaluation before making a final decision and the comprehensive judgment on the University had therefore been deferred.

With regard to Points Evaluated 3-1, 3-2, 3-3, and 3-4 for Standard 3, the results of an academic year 2018 reevaluation centering on the matters for reform pointed out in the academic year 2016 revealed that the University had taken the content of these points seriously and the points in question had been reformed. It is to be hoped that University will continue to implement continuous self-inspection and evaluation, and do its best to achieve quality assurance and reforms.
