These textbooks specify the author, clearly indicating to which faculty member students should address their questions, and this system is well-received by students. This initiative is worthy of high evaluation.
- The university compiles an Annual Course Completion Schedule for Basic Skills that enables students to know at a glance the textbooks and assigned reading books used over four years. This initiative is worthy of evaluation.

### Recommendations for improvement

- The total capacity fill rate for the Department of Home and Life Sciences, Faculty of Home Economics and the Department of Cultural Development, Faculty of Cultural Development is less than 70%, and so improvements are required in order to secure capacity.
- Procedures for disciplinary action against students have not been appropriately set out by the President as required under Article 26, paragraph (5) of the Regulation for Enforcement of the School Education Act. Accordingly, improvements are required.
- Because the indicated items such as rechecking internal rules and organizational style centered on the President's governance cannot be said to be sufficient in terms of the functionality of internal quality assurance, improvements are required.
