Standard 2. Students	Satisfied
Standard 3. Educational Curriculum	Satisfied
Standard 4. Faculty and Staff	Satisfied
Standard 5. Management, Administration and Finance	Satisfied
Standard 6. Internal Quality Assurance	Satisfied

Good practices

- The university has established a remedial center with the aim of supplementing entrants' basic academic skills and proactively provides learning and class instruction support. These initiatives are worthy of evaluation.
- As a COVID-19 countermeasures, the university swiftly implemented devices such as setting rules for classes held remotely, establishing an online education center, and providing online practical training classes using actors, developing initiatives that are effective for learning. These initiatives are worthy of high evaluation.
- Since the 2017 academic year, the university has been undertaking numerous initiatives to improve education, such as introducing teaching portfolios (teaching performance records), conducting hearings with student representatives appointed as Education Reform Committee members, and implementing mutual-training class observations. These initiatives are worthy of high evaluation.

Recommendations for improvement

- The fill rate of total capacity for the Department of Nutrition, Faculty of Health and Nutrition is less than 70%, and so improvements are required in line with plans.
- With regard to the “important points regarding education and research to be stipulated by the President” as prescribed in Article 13, paragraph (5) of the University Regulations and Article 2, paragraph (1), item (iii) of the Faculty Council Regulations, the President has not stipulated any important points and none have been shared with the Faculty Council, and so improvements are required.
