Standard 6. Internal Quality Assurance	Satisfied

Good practices

- The university issues Supervised Research Assignment Continuation Certificates to students who continue with research after their term of early research exposure, the Early Research Exposure Encouragement Award is presented to those who give excellent presentations at academic meetings, and improve students' research volition. These initiatives are worthy of evaluation.
- The High-function Simulator and Remote PBL Using ICT program enables students to view and experience images taken with a 360° camera using VR goggles, and is achieving results in Pre CC Education. This initiative is worthy of high evaluation.
- The Special Program for High Grade Point Average (GPA) Students enables students with high GPA to make short-term overseas study trips and gain research experience through the use of an e-learning system that exempts them for attending lecture. This system is an initiative worthy of evaluation.

Recommendations for improvement

None.
