Standard 6. Internal Quality Assurance	Satisfied

Good practices

- The university has established the Joshigakusei Career Design Center, taken initiatives over a long period of time for the support of career creation and employment aimed at female students, and is achieving results such as awards from external organizations for its fostering of female technicians. These initiatives are worthy of high evaluation.
- A development track has been set up for students with a high volition to study. Special lectures are offered for these students, taking graduate school courses while still undergraduate students is enabled, and learning support in the form of financial assistance for overseas study is provided, and results are being achieved in the form of student motivation. These initiatives are worthy of evaluation.
- The Center for Education Development systemizes FD (Faculty Development) into the three levels of macro, middle and micro and implements them, and the contents of these are permanently provided for perusal in organizational publications and through archiving, serving as a mechanism to encourage new initiatives in educational and research activities and other improvements. This initiative is worthy of evaluation.
- An emphasis is placed upon the fostering of Administrative Staff for Management Affairs who are responsible for playing a central role in educational reforms through collaboration between faculty and staff. With the development of regulations, formulation of personnel development plans, and support for obtaining degrees at the graduate school, a coherent system aimed at self-development has been introduced and is enthusiastically used. These initiatives are worthy of evaluation.

Recommendations for improvement

None.
